Political Revolt Looms In Washington

BROOKHART IN OPPOSITION TO HOOVER'S PLAN

Borah Also Breaks With Administration On Farm Policies

REVENGE THREATS AT POLLS VOICED

Seymour Claim Pledges He Broken In Farm Relief

Bulletin

Washington, June 13.—The house again rallied to the banner of President Hoover in the farm relief fight today when it voted to instruct its conference committee to reject the export adventure scheme of the senate.

The politicians awakened to this today after one of the bitterest weeks the senate has witnessed in years. A week that has seen two of the president's strongest mid-west supporters in the late campaign don their war regalia, and accuse the administration of breaking pledges.

Senator Borah of Idaho, who did work for Mr. Hoover before and after the Kansas City convention, is off the reservation completely on farm relief and tariff. Senator Brookhart of Iowa, who did much to rally the corn-and-wheat belt to the Hoover standard, is similarly off, and today voiced threats of political revenge at the polls at the first opportunity, which will be afforded by next year's congressional elections. All this on the first anniversary of the Kansas City convention before the administration is barely three months old.

There may be considerable talk in the Borah-Brookhart faction there can't be smoke without fire to produce it. And the senate of political revenge at the polls at the first opportunity, which will be afforded by next year's congressional elections. All this on the first anniversary of the Kansas City convention before the administration is barely three months old.

CLINIC VICTIMS NUMBER 125 AS ATTORNEY DIES

Prominent Resident; Hero Of Disaster Perishes From Fume Effects

Cleveland, June 13.—With the death of Henry Lustig, 47, prominent attorney, the toll of the Cleveland clinic disaster, of May 15, reached 125 today.

Lustig was one of the heroes of the tragedy. He had accompanied his father-in-law, Herman Kornfeld, 74, to the clinic for an examination and was waiting in an ante-room when the first explosion occurred.

After assisting his father-in-law, who was on the third floor, to escape the building through a window, Lustig returned to rescue several women. His father-in-law died shortly afterwards and Lustig was taken to Mt. Sinai hospital when he collapsed from effects of the poisonous gas which permeated the clinic and accounted for most of the deaths.

He succumbed this morning, four weeks and a day after the disaster. He is survived by his widow and two sons, one of whom, Allen, 19, is a sophomore at Ohio State university.

Buffery Beggs, steamfitter's assistant, who was in the basement storage room where the explosions occurred, but who escaped with his life, has given new testimony to the city investigating commission. It was learned today, Beggs is of the opinion, however, that an electric light bulb ignited the x-ray films which generated the deadly fumes. This opinion is shared by many investigators.

The report of the city investigators and of Coroner Pearce are expected in the near future.

New Crime Method

Columbus, O., June 13.—Here's a new wrinkle in crime for the local cops to worry about. Mrs. Ruth K. Beckwith, north side woman, today had reported to police that someone paid \$5.50 repair charges on her watch and then disappeared with the timepiece. She declared the watch was worth \$150.

GOVERNOR COOPER TO WAGE DRASTIC WAR ON RACE BETTING, BELIEF

Official Columbus Believes Chief Ohio Executive Will Use All Means Within Power to Halt Gambling at Dog and Horse Speed Competitions

Columbus, O., June 13.—Intimations that Governor Myers Y. Cooper will use every means within his power to stop "betting" at dog and horse races in Ohio were given today by other high state officials.

Conceding with this came the understanding that Prosecutor R. H. Bestwick, of Geauga county, in which the Bainbridge horse racing track is situated, will be "hauled upon the carpet" before the governor within the next few days.

Other reports stated that Dean Richmond, Madison county prosecutor, who is the state's attorney in the county where the West Jefferson dog racing track is located, will take steps to stop the "contribution" system of betting there in the next few days.

If he doesn't, it was intimated in a thinly-veiled threat, Ohio's chief executive will use his influence to see that the prosecutor carries out what Cooper thinks is his "constitutional duty."

Despite the fact that he has received one rebuff at the hands of the court, the governor is apparently in earnest when he says that "betting at races in Ohio has got to stop."

M. Foster, manager of the West Jefferson track, was arrested recently after Governor Cooper advised Richmond to take steps to stop "betting" at the West Jefferson races.

At the subsequent trial, the six men and six women disagreed, and Foster was freed.

The governor's members of the attorney general's office and Richmond held a conference at the governor's office yesterday.

It was learned today that Richmond was "hauled over the coals" inasmuch as the governor insisted that he (Richmond) do something to stop the "betting."

The same course, it was understood, will be followed when the Geauga county prosecutor is summoned before the governor.

London, O., June 13.—Prosecutor Dean Richmond, of Madison county, in which the West Jefferson dog racing track is located, will follow the "hands off" policy in regards to the "betting" at the races, he told the press today, despite the fact that reports from Columbus stated he had decided to take steps to stop the purported gambling.

MALLOY NAMED BY FIRE CHIEFS

Salem Official To Again Be Vice President Of Association

Sandusky, O., June 13.—The Ohio Fire Chiefs' association concluded its annual convention at noon today by electing Chief Robert Leedham, Portsmouth, president, and unanimously voting to hold next year's convention in Portsmouth.

Chief John A. Grogg, Tiffin, and Vincent Malloy, Salem, vice-presidents; and Chief Philip J. Hart, Youngstown, secretary-treasurer, were re-elected.

Resolutions favoring a fire prevention course at Ohio State university were adopted and appointment of a committee to make arrangements was authorized.

A committee composed of Chiefs Joseph H. Speedy Lakewood; Ed Foran, Akron and C. S. Magruder, Columbus, was appointed to consider the advisability of revising the association's constitution and by-laws.

Swedish Plane Forced To Delay Trip As Storms Are Over Course; Ship Ready

Reykjavik Iceland, June 13.—Unfavorable weather reports today forced indefinite postponement of the hop of the Swedish monoplane Sverige for Iqvitut, Greenland on the third leg of its attempted transatlantic flight from Stockholm to New York.

Captain Albin Ahrenberg, leader of the attempt, made three efforts at a get-away yesterday, but each time was forced back by mishaps. Mechanics worked until a late hour last night getting the machine into shape, and all is now ready for an immediate start as soon as the weather clears.

CHURCH LAUDS HOOVER STAND ON PROHIBITION

Pledges Hearty Support To Executive For His Effort

BISHOP CANNON HAS RESOLUTION

Unification of Churches Occupied Much Time At Meeting

Back Hill Falls, Pa., June 13.—After devoting its attention solely toward launching a movement for unification of Protestant churches in the United States, the institute of religion, composed of a hundred notable men and women of the religious world, closed its four-day sessions today by taking a hand in the prohibition battle.

The institute unanimously adopted a resolution without comment, presented by Bishop James Cannon Jr., of the Methodist church, South, commending President Hoover for his stand for the enforcement of the Eighteenth Amendment, and pledged to him its hearty support.

Bishop Cannon's resolution came out of a clear sky when the business of the institute had been concluded by adoption of a report of the "Committee on Findings."

There had been on previous mention of prohibition, although Mrs. Ella Boole, of Brooklyn, N. Y., national president of the Women's Christian Temperance Union, attended the sessions and took an active part in discussions regarding church unity.

As had been anticipated yesterday, the institute in the adoption of the report of the committee on "findings," of which Dr. William Adams Brown, of New York, the minister who married Lindbergh, was chairman, planned for future conferences, the aim which will be the unification of the Protestant church.

Mac Donald Plans Dawes Meeting

London, June 13.—Premier Ramsay MacDonald and American Ambassador Charles G. Dawes will inaugurate discussions of Anglo-American co-operation in behalf of disarmament and world peace over the luncheon table in a tiny Scottish town, according to the Evening News, today.

The premier and the American ambassador, according to present plans, will meet on Sunday at Forres, 17 miles from Lossiemouth, Scotland, where Mr. MacDonald is spending a vacation.

The newspapers quoted the Premier as saying: "We will meet over the luncheon table and in the short space of three or four hours, great questions of Anglo-American co-operation in the cause of disarmament and permanent peace will be opened."

DOCTOR HOLDS MAN IS SANE

Theodore Carr Will Hang Friday Unless Governor Intervenes

Moundsville State Prison, Moundsville, W. Va., June 13.—With his hope for executive clemency apparently gone, Theodore Carr, Pocahontas county farmer, will ascend the gallows platform at the prison here Friday night and be "hanged by the neck until dead."

Dr. L. V. Guthrie, superintendent of the Huntington State hospital, reported to Governor William G. Conley that Carr is sane, after conducting an examination of the doomed man here.

This, it was intimated, shattered the hopes of the doomed man for executive clemency. The supreme court has already decided the man must die.

Carr was convicted of first-degree murder in connection with the slaying of Lock Sharp, a neighbor. He also is alleged to have murdered his wife, but he was not tried on that charge.

Dr. Guthrie declared that Carr is fully conscious of the difference between right and wrong, but is depressed because of the impending violent fate.

Carr is a mere shell of the robust man who was convicted of murder in the Pocahontas county courts this spring.

W. C. T. U. Sponsors County Institute

Representatives of the unions at Salem, East Palestine, Rogers and Leetonia attended a county W. C. T. U. institute Wednesday afternoon and evening at the Methodist church, Winona. Mrs. Kittie Rothwell, county president, presided.

At the afternoon session there was a round table discussion and a play given by Mrs. J. B. Zeigler, Mrs. Anna Edgerton, Mrs. Anna Hess, Mrs. Joel Cobb and Miss Betty Robinson members of the Salem union.

The Winona Loyal Temperance legion gave a demonstration at the evening session.

Rev. Lydia Brantingham contributed a paper relating to temperance and Rev. George Gooderham gave a talk. A play was presented by members of the Winona union.

PATROLMAN IN GUN DUEL WITH THREE BANDITS

Officer Unhurt; Wounds Two, Captures One of Trio

Cleveland, June 13.—A trio of daring bandits and Patrolman Paul Lindsay shot it out in almost the heart of the downtown business district today, with the result that one of the robbers was captured and another wounded. The third bandit fled, as did the wounded man, but police predict their capture within a few hours.

William Finley had just opened his barber shop in Playhouse Square and was preparing to serve Burt Quinn, the day's first customer. The three bandits entered the shop, forced Finley and Quinn to the basement and took \$200 from the barber and \$500 from the customer.

After binding them with adhesive tape, Finley broke loose and his alarm brought Patrolman Lindsay to the scene.

The patrolman dashed into an alley where the trio was attempting to make a getaway in a small roadster. He said the bandits immediately opened fire all of their shots going wild. Lindsay returned a volley and one of the men slumped forward, clutching his shoulder and fled. Another jumped from the car and disappeared while the third disappeared with the car.

He was captured a few minutes later in a nearby parking lot. Police said they found an empty revolver under the car.

Lineman Killed

Record Breaking Speed Will Mark Recognition Of Dawes

London, June 13.—While still on the high seas, General Charles Gates Dawes, newly-appointed American ambassador to the court of St. James, has effected a modernization of Britain's tradition-bound foreign office policies.

Arrangements were completed in Whitehall today for the reception of the new United States diplomatic representative to this nation, with the result that the former vice president will be rushed through to official recognition by the government and the king with record-breaking speed.

Within 24 hours of his arrival aboard the Olympic, Ambassador Dawes will be ushered into the presence of King George at Windsor Castle to present his credentials, thus accomplishing in a day what usually takes two weeks or more.

The fact that General Dawes is understood to bear instructions from President Hoover to take all necessary steps to pave the way for the epochal meeting scheduled to take place in July between the United States executive and J. Ramsay MacDonald, British prime minister, is believed to be mainly responsible for this unusual burst of speed on the part of England's officialdom.

But the fact that the new ambassador is General Charles Gates Dawes also is believed to have something to do with this wholesale clipping of red tape.

Yellow Bird Makes Fine Takeoff From Sandy Maine Beach

Old Orchard, Maine, June 13.—Bound on a 30-hour run by air to Paris the French monoplane Yellow Bird today was winging her way off the coast of the Pine-Tree state while the American monoplane Green Flash lay in partial ruin on the beach here.

The Yellow Bird, with its trio of daring French flyers, made a perfect takeoff at 10:08 a. m. but at 10:22 a. m. the Green Flash skidded in the sand, bent over on her side and all but "cracked up."

An hour after the beautiful take-off in the sunlight of this June day, radiograms sang back from the Yellow Bird's sending apparatus to a local portable radio station here.

"Everything okay," said the messages. A hundred miles up the coast Armeno Lotti Jr., sponsor of the

Paris Bound Plane Carries Radio Set

Old Orchard Beach, Maine, June 13.—Tabloid of the Paris-bound monoplane Yellow Bird follows:

Yellow Bird; Bernard monoplane; gross weight 12,700 pounds; Hispano-Suiza 600 horsepower motor; speed 150 miles per hour; cruising speed 125 miles per hour; color of plane, canary yellow with band of French tri-color across fuselage, also a picture of a white bird, emblem of the Croyne Escadrille; fuel, slightly more than 1000 gallons of high test gasoline mixed with benzol; lubricant for motor, castor oil; radio call letters, PAX, radius 400 miles.

Flight of the Yellow Bird and radio operator aboard, flashed back the word that she was climbing to an altitude of better than 2,000 feet. Lotti said his youthful companions—Jean Asolant, pilot, and Rene Lefevre, navigator, were in excellent spirits and full of confidence.

The Paris-bound Bernard monoplane was accompanied at the start of her flight by the coastguard Amphibian Plane Looming, in command of Lieutenant Leonard M. Melka, of the Gloucester base of the coast-guard service.

Lotti was still sending back radio reports to the beach here when the Looming returned with the word that the coastguard Amphibian had accompanied the Yellow Bird approximately 75 miles off shore and that all was going well.

At the previous take-off two weeks ago the Yellow Bird had an accident and narrowly escaped dropping into the sea. The vibration of her single 600-horsepower motor opened a seam in the fuselage gasoline tank and she began to spill her fuel in a dangerous manner. Today however, Lotti had taken the precaution to mix benzol with his gasoline of higher volatility than used before in order to eliminate the vibration. Apparently he was successful.

The Yellow Bird had a little difficulty in gaining altitude at the takeoff, but in swinging from a southerly to easterly direction was given a lift by the wind and a few miles out began to climb majestically toward the blue heaven.

Green Flash "Spills"

At 10:22 a. m. after the Green Flash had started on a rush down the beach one of her wheels sank in the soft sand, and she went over on her side.

The left wheel snapped and then the right wheel went as the green here today.

Treasury Department May Conduct Quizz Of Killing

International Falls, Minn., June 13.—Bureau of current today Treasury department officials in Washington have been ordered to make a direction of the federal investigation of the killing of Virkula, Big Falls, Minn., by a customs border policeman.

The report gained circulation after David Hurlburt, Koochiching county prosecutor, asked Congressmen William A. Pittenger of this state to complain to Seymour C. Duggan, assistant secretary of the Treasury in charge of prohibition enforcement, that government representative in International Falls was "siding over" the inquiry.

Declaring it was evident the Federal probe of the Virkula affair has practically ended, Hurlburt condemned it as "superficial" and "routine." He said he would insist on further investigation.

"This affair is too serious to be dismissed without a most exhaustive examination," he asserted. "It is highly dangerous to allow things of this kind to go on."

Meanwhile Hurlburt today was assembling evidence in preparation for the preliminary hearing of the second degree manslaughter. The prosecutor was waiting definite decision as to whether the state or the government would handle the case. He holds that White should stand trial first in state courts.

TO MAKE MOTORING SAFE

Announcement comes from Columbus that the state bureau of motor vehicles will inaugurate an intensive two-week, day-and-night campaign, June 15, looking to the elimination of the dangers and the correction of the abuses which result from "inefficient and illegal automobile lighting and equally careless and illegal automobile identification." State Commissioner of Motor Vehicles Chalmers R. Wilson plans to have the inspectors of the bureau marshal the law-enforcement forces of the entire state whose insistence it will be that every automobile and motor truck show two headlights, properly placed, directed and focused, and two license plates, so unobstructed and maintained that they may be easily read.

Under the plan of the state commissioner, busy market towns, county seats and crossroads communities as well as the various highways will be visited and revisited by inspectors, and he looks to the cooperation of all citizens who would have motoring made safer, as well as to mayors, chiefs of police, marshals and policemen in population centers and to sheriffs and others engaged in law enforcement in counties, in the coming campaign to stem the increasing tide of law violation in the matters of lighting and marking motor vehicles.

The campaign is not designed primarily as a penalizing one. It is planned to be one of education and correction, where unwilling offenders are found, but flagrant and persistent violators, he lets it be understood, will experience the full weight of the Ohio traffic laws. "Those who cover their license plates with bumper or other obstructions or seek to calm the waters of motor violation by pouring oil on their license numbers that dust may collect," the announcement reads, "will be the first to feel the iron hand in the velvet glove of the bureau inspectors."

The state bureau is authority for the statement that the improper lighting of motor vehicles is annually responsible for the unnecessary loss of hundreds of lives and for a property damage amounting to many millions of dollars. We do not know the source from which it gets the figures upon which to base this statement, but we take it that the statement would not have been made were it without foundation of fact.

Accepting it at its face value, it can hardly do other than bring home to motorists the injustice which they do themselves as well as their fellow-motorists by failing to light their vehicles properly. When observance of the law in this regard works for the safety of themselves as well as that of others, it is hard to understand how motorists neglect to show respect for the traffic regulations in this regard. Certainly there can be little question that our lives are precious to the most of us. Why then should there be failure on the part of any to neglect the safeguards which go to insure that which is held precious? One would naturally think that every motorist would see to it that he was utilizing every safeguard possible to escape the fates which annually come to thousands as a result of motor accidents.

What Others Say

COOLIDGE BREVITY.

In his public addresses as well as his state papers, President Coolidge gained a reputation for brevity while he was in the White House. In his forthcoming autobiography he runs true to form. As the editor of Cosmopolitan puts it, "he has told in less than 45,000 words not only the complete story of his life, but the complete story of our country during the dramatic years of his generation." "In these days of non-vented autobiographies and biographies," the editor adds, "it is a real achievement to see that a real achievement is shown. The former president also shows his capacity for hard work in completing his autobiography. In the forty days between his visit of March 26 to New York and April 29, when the announcement was made, Mr. Coolidge wrote five installments of his autobiography of some 5,000 words each. In something like three months, including

the last month and a half of his term in office, he not only completed his autobiography but wrote other articles which have since appeared in magazines. His achievements in this field, both with respect to his capacity for work and for brevity, are worthy the emulation of some of the so-called professional writers. Brevity can be something else besides the soul of wit, and mere verbosity is too often only the sign of a shallow brain—Ohio State Journal.

The Stars Say

For Friday, June 14

ACCORDING to the lunar aspects for this day a generally adverse and futile state of affairs may be expected. Employment is attended by hazards and there are signs of personal inharmonies and friction. While new undertakings may engage the attention, with some optimistic or encouraging outlooks yet there is likelihood of tenacious obstacles with possible postponement and disappointments.

Those whose birthday it is are coming to a year of conflicting auguries. Although there are prospects of new undertakings, with some promise of success, yet there are also presages of obstruction, delays and disappointments. The employment is also in jeopardy, and there are likely to be domestic, social and personal discords and friction, although they may be of a not very serious nature.

A child born on this day may have many excellent qualities and equipments for success and a position in life, but these may have to be attained by hard labor and surmounting many difficulties.

We talk a lot about the "Golden Rule." As it is applied it relates largely to moral and social contacts. Why should we not think of the "Golden Rule" in connection with our physical contacts?

DR. COPELAND

There is no fault to find with our friends who oppose vaccination and other similar methods intended to prevent disease. I would not say a word today if the position they assume related only to their own individual welfare.

To my mind the right of self-determination is fundamental. We should never seek to trample upon this right unless there is abundant and provable reason. I might look in sorrow upon a person taking a course which to my mind is a mistaken one. I might be so bold as to remonstrate with him. But when it comes to a matter related to the public health and the welfare of many individuals there is no doubt in my mind about the duty of Government.

I receive an occasional letter from some honest and perfectly conscientious person, remonstrating with me because I advocate such preventive measures as vaccination and inoculation. They ask for conclusive proof that such preventive measures are actually useful.

This is not the time to discuss in detail that particular criticism. I shall pass it by for the moment with the arbitrary statement that in my opinion there is no more conclusive fact in medicine than the effective prevention of smallpox by vaccination and of diphtheria by inoculation. Holding this view, I feel that the French Government is to be commended for its watchful care of the health and lives of its citizens.

The person who habitually dwells in one limited region, a region where no smallpox is present at the time, may be excused if he neglects to be vaccinated. He is in no immediate danger himself and the community will not suffer by reason of his neglect.

It is quite another thing with the individual who converts himself into what we may call a "public conveyance." If he is traveling through infected districts, he may, even unknowingly, pick up germs of smallpox. He conveys them to another community or another country and makes himself a menace to every one with whom he comes in contact.

The safe thing for you and for society is to practice the "Golden Rule" and be vaccinated.

Long suffering from rheumatism had brought Mr. Thomas F. Berlin, Carrollton, Ohio, Route 4, to the point of despair. He knew of the value of the old Indian herbs and how frequently these had brought results after everything else failed. When he read of the results many people were having by the use of Owa-Ton-Na, he decided to give it a trial. You can imagine his joy

when even in a short time, he could notice a big change in his condition.

Mr. Berlin says, "When I started to take Owa-Ton-Na, I had so much trouble that it seemed everything was wrong. I had no appetite, when I would eat food gave me a great deal of distress. Gas and bloating spells, sourness and belching spells kept me miserable. Rheumatism with its many pains were all through my body and I often suffered severe pain.

"Since taking Owa-Ton-Na steadily now I can truthfully say that it has given me a new outlook on life. Why, even the first bottle proved to me that this was the medicine I needed. My bowels act regularly, my stomach is normal and today I can't seem to get enough to eat. Pains and aches are just about a thing of the past. My kidneys are acting normally. I now enjoy a restful night's sleep, and every night in the week too. I have also found Owa-Ton-Na Compounded Liniment a wonderful help in relieving the pain when a severe attack of rheumatism comes on."

The statement of Mr. Berlin is not an unusual one for this fine old Indian Remedy. You, too, may find in Owa-Ton-Na just the remedy you have been looking for. Owa-Ton-Na is sold in Salem at Flodina's, Belger & French and J. H. Lease drug stores.—Adv.

Miss Mildred Mercer had charge of the meeting which followed the dinner. A program was given which consisted of these numbers: special music, Miss Edna Primm; welcome speech, William Muskin; response, Miss Myrtle Griffith; special music, Robert Buckholdt; and John Wolford; a toast, "Be Progressive," Mrs. Merle Shreve; music by a trio; reading, Samuel Jolly; talk, R. L. Druhot, superintendent of schools.

New officers were elected for 1930. They are: President, Adelbert Greenamyer and secretary-treasurer, Miss Mary French.

QUEEN ESTHER SOCIETY

The new officers of the Queen Esther society of the Methodist church elected at a meeting Tuesday evening are:

President, Miss Helen Dressel; vice president, Miss Margaret Floyd; secretary, Miss Nellie Naragon; treasurer, Miss Esther Stewart; birthday secretary, Miss Ruth Eakin; mite box secretary, Miss Margaret Kirkbride.

CLASS PARTY

Miss Cora Seekins gave a farewell party to the "Class in the Corner" of the Methodist church. She has been teacher of this class for the last three years.

Miss Seekins, bride-elect of Walter Wilcox, whose marriage will be a June event, was presented some pretty gifts. Games were played and refreshments served by the hostess.

MRS. GREINER'S LUNCHEON

Mrs. H. A. Greiner entertained at a prettily appointed luncheon-bridge Wednesday at her home, Lincoln ave. The home was beautifully decorated in garden flowers.

Three prizes were offered in the bridge games. These were won by Miss Mary Bustard, Mrs. Fannie Post and Mrs. James Dawson. Mrs. Dawson of Youngstown was an out-of-town guest.

LOYAL WOMEN'S CLASS

A covered dish supper featured a meeting of the Loyal Women's class of the Christian church Tuesday evening at the church. A business session was held and an informal social time enjoyed.

"I am so happy"

...that the last pimple is gone"

EVERY evening thousands enjoy themselves at dinner-parties, dances, theatres, games, clubs. Many thousands more are denied the joy of such merriment and happiness.

Maybe this denial is due to a skin trouble. First impressions cannot be good without a clear skin—first impressions are quickly made and are not soon forgotten. Old friends may excuse pimples and secretly sympathize, but new acquaintances may not be so charitable. Skin blemishes are not inviting. Neither can they be covered up. They embarrass. Hold people back. Steal away joy and happiness.

A lovely—clear skin—is within the reach of all. To those who have lost it, hope is offered. You, too, may have a beautiful skin, rose-petal in texture, pretty as a picture and without a single pimple.

Many thousands have regained their strength and charm by taking S.S.S. It is Nature's own blood tonic for raising the body's power of resistance to disease, improving the appetite, building firm flesh, and clearing the skin.

S.S.S. is made from fresh vegetable drugs and has a successful record of over 100 years back of it.

Take S.S.S. at meal-time. You will be delighted with its blood building and tonic effect.

All Drug Stores sell S.S.S. Ask for the larger size. It is more economical.

Start early on your grass. Order one of our easy running, quick cutting lawn mowers with a grass catcher.

We've definitely decided not to become an aviator until they take down all the trees, high buildings and telegraph poles. If your screens are a bit shabby, have them replaced. We will do it for you if you call 807.

What bothers us is where these girl bandits you read about carry their pistols.

We carry that Good-year Kant - Kink lawn hose. It helps to keep the lawn and flower: beautiful.

YELLOW BIRD

(Continued from Page 1)

Flash tipped, her left wing was slightly crushed and the wheels of her propeller became buried in the sand.

Lieutenant Lewis A. Yancey and Roger Q. Williams were nearly thrown from the plane.

The failure of the takeoff today which nearly resulted disastrously to the lives of the two fliers, was said to be due to the fact that "not enough rudder" was given the plane during the taxing process down the beach and with her heavy load she was unable to keep upright.

After the American fliers climbed out of their plane they went back and stopped the motor and then climbed out again. They stood viewing the "cracked ship."

Examination of the Green Flash showed that her landing gear was broken, her left wing was disabled, her propeller blades, which were buried in the sand, were out of true and possibly her motor was fractured. This made it impossible for another takeoff until complete repairs were made, probably a matter of several days.

Second Accident

This was the second time in a takeoff for Rome that the Green Flash had become lodged in the sand. At the takeoff two weeks ago the wheels of the Green Flash became lodged in the soft sand a few hundred yards from the starting point. Late yesterday at the trial takeoff the plane again became sandbound.

As the Paris-bound airplane Yellow Bird was being tuned up for its flight it was learned that Mrs. Jean Assolant, bride of less than a week, made unsuccessful efforts to get a place in the plane beside her husband.

She asked Armeno Lotti Jr., sponsor of the flight, if she could go and tears were in her eyes as she made the request. Lotti told her it was learned that there was just room on the plane for the trio of French birdmen.

Mrs. Assolant was the former Miss Pauline Parker, of New York and Worcester, Mass.

Regulation Baseball Loop Opens At Centennial Park Tonight

Electric Furnace Nine Opposes Masons In First Game Of Year

The results of consistent efforts on part of Salem baseball fans, engaged with the idea of organizing a city baseball league, will be viewed by spectators for the first time when the opening contest of the circuit will be played at Centennial park grounds, at 5:45 tonight. The Electric Furnace nine opposes Masonic lodges in the opener.

The loop is the materialization of efforts of several hardball enthusiasts in Salem, working for a league for the past three seasons. The last inter-city baseball league is a matter of history in the city, and the old-timers, who took part in those competitions, have been working for some time in putting to the public the idea of again playing baseball on the map.

Centennial park has undergone considerable improvement; the infield has been graded and laid out in new order, and considerable improvement work has been done in all parts of the layout. Work on the outfield, which was taken up in sufficient interest, is shown to warrant the undertaking. A drinking fountain will also be installed this summer near the end.

Four teams entered. Four teams have entered the league, a fifth, the Deming Pump company, which had planned on joining into the competition, being forced to drop out due to the quantity of over-time work now in progress at the plant. With the opener between the Furnace and Masons, which will be played at 5:45, the other four teams will play their first games on Friday evening, when the Colonial Billiards clash with the crack Salem China combine.

Lineups of none of the teams are available as yet, but apparently each outfit has gathered together a strong aggregation of both the city's old-time and youthful diamond talent. Members of the Deming team will be scattered among the remaining four teams, giving each additional strength.

Vincent Heads Pottery. Harry Vincent, one of the city's greatest catchers, and who has been an active interest in all athletic activities in Salem for more than 10 years, heads the Pottery outfit, which is composed of Frank and Clem Scullion, Walter Collins, Homer Veon, Pat Bolen, and other well known performers. Vincent this year is in a large measure responsible for the organization of the league, stirring up interest throughout the city, and took an active hand in the improvement of the field at the park.

Joe Kelley has rounded up a strong outfit and promises a formidable lineup in the Masonic representation tonight, while the Furnace will be made up of players from both this city and Alliance, those from the latter place being employed by the Electric Furnace company. Clarence L. Bert manages the team.

The Billiards have the youngest group in the circuit, being composed of members of the former Cub outfit, which held a prominent place in local sports here for some time. Charlie Stitt, well known umpire

Billiards Win Close Contest Over Federals

Colonials Are Forced Into Extra Innings to Win 6 to 5 Game

Kridler's miff of a return into home permitted Freddie Bova to come in from third base, and account for a 6-5 verdict, won by the Colonial Billiards, over the Post Office, in the Salem softball league, at Centennial park Wednesday night.

The game was closely contested throughout, being tied 2-all at the end of the seven regular innings. Bova was safe on Mellinger's error, to start things off in the final ninth. Early filed out, but Shipman and Pete Sartick, pinch-hitter, both singled. Bova stopped at third on Smith's throw-in to the plate. Kridler dropping the throw, and allowed the run to score.

Early kept the Federal stickers popping weak flies into the air, and had only one bad frame. Poor support lost for England, Federal hurler.

Salem Boxer On Sebring Card Tonight

Johnny O'Keefe of Salem and Chick Walker of Ravenna will meet in one of the supporting bouts to the Frankie Wine-Art Malay boxing match at Sebring tonight.

Wine scarcely needs an introduction as his record is well known. He has been swapping punches with some of the best boys in the top flight of the heavyweight division. He stepped 10 rounds with Young Stribling at Jackson, Mich., about a year ago and lost a very close decision to the pride of Georgia.

Art Malay has met and beaten Pat Lester Bob Ward, "Tiny" Smith, Joe Stengle, Mike Mandell, Dave Knost, Johnny Mack, Marly Gallagher, Ralph Smith and Tom Pivac. Malay met Young Stribling in a sensational bout at Norfolk, Va., shortly before the latter tangled with Jack Sharkey in Jack Dempsey's Miami Beach party. Later Malay fought a slashing 10 round draw with "Tiny" DeBolt of Connecticut at Bellaire on May 27.

Dazzy Vance's Record As King Of Strikeout In Threatened

BY LES CONKLIN

New York, June 13.—Babe Ruth, the ailing home run monarch, is not the only baseball king in danger of losing his crown. Dazzy Vance, champion strike-out artist of the National league, who like Ruth has been handicapped by illness, is running a poor third in his specialty to Perce (Pat) Malone, the Cubs' fast-ball pitcher.

Malone, who was second only to Vance last season with 155 strikeouts to an even 200 for the Brooklyn mound ace, is leading the National League today with 55 for 11 games. He struck out 12 of the Phillies yesterday. Karl Hubbell of the Giants, runner-up in the race with a total of 41, lost ground when he was bumped off by the Pirates without fanning a single batter.

Vance has a total of only 34 but has worked in only seven games. He will have a chance to draw closer to the leaders today, being scheduled to work against the Reds.

Malone's 7-to-3 win over the Phils

Myles Thomas, making his first start for New York in nearly two years, finished in 2 1-3 innings.

The Athletics rolling along faster than old man river himself, polished off the White Sox for the third game in succession, 7 to 3, and increased their lead over the Yankees to eight games. The Macks nicked Lyons for five runs in the first two innings, while Rube Walberg had no trouble in chalking up his seventh victory of the campaign.

The senators knocked Willis Hudlin off the mound but couldn't do any business with Joe Shaute, and Cleveland came from behind to beat the Nats by a 9-to-5 count.

Other teams did not play.

Quality's final safeguard..

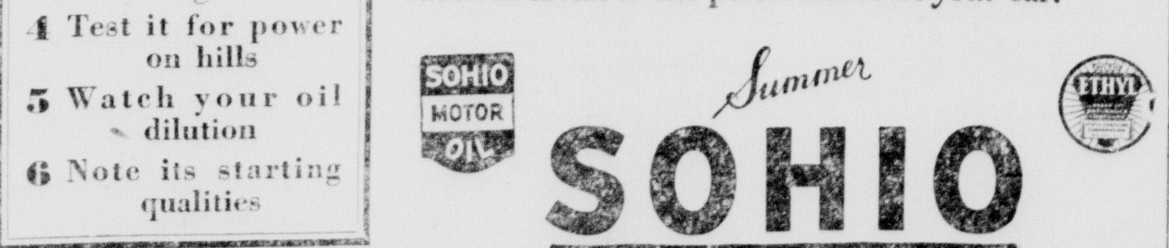

CHEMICAL ANALYSIS OF EACH TANK CAR'S CONTENTS

LONG trains of tank cars stand beside the loading racks at the Cleveland and Toledo refineries of the Standard Oil Company of Ohio. Into one car goes Red Crown Gasoline; into another, Sohio.

The quality of these products has been constantly and painstakingly checked and safeguarded at every stage of their manufacture. Yet before the filled cars are sealed, another and final check is made.

A pint sample is drawn from each car, and rushed to the plant laboratory for chemical analysis of quality. Until this analysis proves up to Standard Oil's high specifications, the train must wait.

Extra refinery care and modern methods, skilled workmanship and advanced equipment, combine to produce Sohio Ethyl Gasoline. More than 700 Red-White-and-Blue Standard service stations and dealers' pumps throughout the state are ready to serve you with Sohio. Find out for yourself what Standard Oil's extra precautions mean to the performance of your car.

RED CROWN GASOLINE We make Red Crown ourselves, in the same great plant that produces Sohio, because our customers are educated to a better grade of fuel than ordinary motor gasolines such as we might buy in the open market.

"MOLLY AND ME"

A love story told by Belle Bennett, Joe E. Brown, Alberta Vaughn and Charles Byer in "Molly and Me" is the all-talking feature at the Royal Theatre, where it remains until Saturday.

It is about a pair, Molly and Jim Wilson, who have loved truly through ten years of one night stands only to nearly founder when they reach the success of Broadway stardom. There is nothing ugly, sordid or cruel in their story—just human, real and tender.

Jim gets a New York engagement, but without Molly, who finds life too empty merely as his wife and goes back to the burlesque troupe. Jim's pretty little partner in the act he and Molly used to do, is a practiced pettee—she pets everyone everywhere. But Jim takes her petting so seriously that he decides to break with Molly and marry Peggy. When he finds Peggy is engaged to someone else he has to eat humble pie before Molly, but he does it most engagingly and Molly is, as he realizes, an angel!

"WHERE EAST IS EAST"

"Where East Is East" opening at the State Theatre is laid in the jungles of Siam, afar from civilization, where human lives and human passions run rampant.

Lon Chaney plays the role of "Tiger" Haynes, trapper of wild

beasts in his jungle fastness, and here with the love of his life, his daughter, played by Lupe Velez, he dwells in comparative peace with no enemies save his savage tigers, gorillas and elephants—until another woman comes into their lives like an avenging nemesis.

Estelle Taylor plays this role, a vivid Oriental charmer, beautiful and deadly. The triangle turns into one of the most astounding plots in literature, rivaling the most fantastic flights of fancy.

Lloyd Hughes plays the romantic lead as the young American visiting the tropics. Louis Stern as the priest and Mrs. Wong Wing as the Chinese grandmother, are ideally cast.

"WEARY RIVER"

Richard Barthelmess, singing and talking in "Weary River" still playing at the Grand to capacity houses, is in one of his best roles since the production of "Toilful David", one of his first movie pictures. His excellent tenor voice, however, in "Weary River" carries him to still greater heights.

Betty Compson, too, is an improvement over the Betty of silent cinemas. The entire cast is hand-selected, and synchronization is almost perfect.

Barthelmess is shown as a singing underworld leader, who is framed into a term in jail. There he organizes an orchestra, writes his song, "Weary River", and wins his way to freedom by his sudden change of character. Out in the world, faced by taunts of "ex-convict" he abandons a career as "Master of Melody" and returns to crookdom.

STYLE EDICTS

Paris, June 13.—The French fisherman on the Southern coast has inspired the clothes for wear on smart beaches this summer.

There are full trousers and little fitted vests of grosse toile, sleeveless jerseys, shirts made of kerchiefs, red cotton sashes and big straw hats that turn up or down. White Oxford bags are shown, belted outside of sweaters, sashed and sleeveless, and there are some delightful big checkered ones worn with bright-colored jackets.

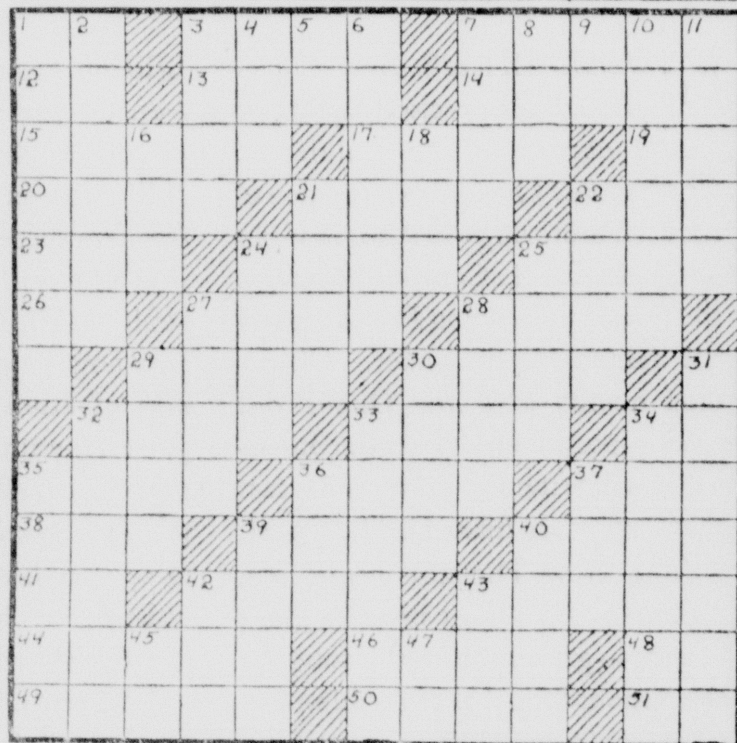

Tattoo bathing-suits have the pattern knit in thin out lines of hearts entwined, arrows, snakes and "Ever True to Mary" mottoes on skin-fitting costumes, either white or beige that is just the color of a good sunburn.

There are also good little shaped suits with skirts or tunics for the woman who does not quite resemble Madame Venus.

Hygienic sweaters, loosely-knit in a special strand-like wool and can be washed like a handkerchief every time they're worn, will be very useful for coolish days.

Three-piece costumes with a jacket as simple as a cardigan, but edged with various simple manners that preserve the stream-line effect of the buttonless coat, are coming out for summer at the sea. Various textures in matching colors are often featured in these costumes, the skirt being of some woolen and the sweater in hand-knit or Jersey mixtures.

THE HOME KITCHEN

By Jeannette Young Norton

If you feel like being wholesomely pepped up on one of these warm soggy days try this simple drink. Fill a tall tumbler half full of cracked ice. Cut a grapefruit in half. Squeeze and strain the juice over the cracked ice and mix well. Don't add sugar. This drink has a delightful and slightly bitter flavor, which is different, and tones one up. This is service for one. If you wish to make a drink that serves five or six persons the following is a refreshing combination. It must be made just a moment before serving. This is not a drink that can be prepared hours in advance. In fact, most drinks are the better for being prepared from freshly cut fruit. But grapefruit, particularly must be disposed of at once, as it develops an excessive bitterness if left standing.

Grapefruitade

Two grapefruit, two oranges, one cup sugar, two cups cracked ice, four cups water, one tablespoon crushed mint.

Melt the sugar in the water. Put the mint into a strainer and then force through the juice of grapefruit and oranges. Pour over the cracked ice, add sweetened water and serve immediately.

Limes have a special flavor of their own, in addition to an extreme but pleasant sourness. One or two limes added to a lemonade or

England Nets Gain From Police Force

London, June 13.—The police force of London pays for itself—and more.

Last year the cost of the London policeman was \$40,000,000. But receipts from grants, fines at police courts, licenses and other sources exceeded \$40,800,000. Out of the latter amount a staff numbering 19,189 were paid. One item of revenue was \$1,135,000 paid by the admiralty for the guarding of naval establishments.

Women police last year cost only \$48,000.

To maintain a slender figure, no one can deny the truth of the advice: "REACH FOR A LUCKY INSTEAD OF A SWEET."

Malicious Propaganda

No amount of malicious propaganda, an insult to public intelligence and good faith, can sway public belief in this fact: Lucky Strike is a blend of choice tobaccos whose toasted flavor thrills the taste, whose toasting process eliminates impurities, and, as 20,679* physicians testify, makes Luckies less irritating. Toasting elevates Lucky Strike to a plane of quality which no other cigarette can approach. The constant care of experts assures the quality of Luckies. Its choice by millions proves its superiority and is the truthful answer to selfish claims.

THE GUMPS—THE WELCOME MAT IS OUT

cupful of strawberries, two table-
spoons sugar, one cupful of cracked
ice one egg white.

Mash the strawberries through a
fine sieve and pour the juice into a
shaker. Add the other ingredients,
including the unbeaten egg white,
and shake vigorously for two min-
utes. Then pour into thin glasses.

Any other crushed berries or pine-
apple juice may be used instead of
the strawberries, and the amount of
sugar varied to suit the taste. Most
people over-sweeten these drinks.
Test for flavor, until the most

agreeable sourness is arrived at, but
if a sour drink is made too sweet it
may aggravate thirst instead of al-
laying it.

Iced tea is a good standby for
warm weather, and it can be made
very quickly. Steep one tablespoon-
ful of tea in one cupful of boiling
water for five minutes, then strain.

Pour this very strong solution into
a large pitcher and add cracked ice
and water until it is the strength
desired. A few slices of lemon or
lime, with a few bits of clove stuck

in them will add flavor, and a few
sprigs of mint always improve iced
tea.

to be served—over 20 or 30—it is
convenient to make up a syrup in
advance:

DIGESTION IS RESTORED BY NEW KONJOLA

Sufferer Found His First and Only
Relief When New Medicine Was
Put to the Test

MR. JAMES PALAIZO

"If I had only known of Konjola
years ago, what suffering I would
have been spared," said Mr. James
Palaizo, 137 West Third St., Cleve-
land. "The poor condition of my
stomach caused awful indigestion
rains. Gas formed, and I became
short of breath. By bowels were in-
active, and I finally became nervous
and irritable.

"But by the time I had used two
bottles of Konjola I felt like a new
man. I can eat when and what I
want, and never suffer afterward.
My bowels have been strengthened
and regulated, and poisons cleared
from my system. I feel better in
every way than I have for years,
and I owe all this new health to
Konjola."

Konjola is sold in Salem, O., at J.
H. Lease drug store (Mr. Kaminsky)
and by all the best druggists in all
towns throughout this entire sec-
tion.—Adv.

Uncle Sam Tries To Improve His Soldiers' Looks

Washington, June 13.—Uncle Sam is trying to improve the appearance of his doughboys, and at the same time to develop the latest wrinkle in clothing and equipment as to quality.
Maj. Gen. B. P. Cheatham, quartermaster general, announced that experiments are well under way to this end.
New types of leggings with shoes are being tried out on the infantry; an experiment has just been completed with a cordovan collar, and it was found to be not practical because when dyed the leather curled at the edges.
Samples of blue dress caps were procured and shoddy 1000 of this type, having a rayon band instead of the present cloth band, will be on sale to enlisted men, to wear with their "blues" while on "pass." The new cap gives a very dressy appearance, Gen. Cheatham said.

It Seems There Were Two Husbands . . .
Their wives had gone to the country for a week. Neither knew how to cook. They were reduced to despair. One had an electric refrigerator. Upon opening the door he found a note:
"Dear George:
I am leaving you with the electric refrigerator plentifully stocked. Remember to put water in the trays for your ice cubes. Keep milk in the bottom of the food chamber." Both heaved a great sigh of relief. Thus amply provisioned they lived happily until their wives returned. Moral: Only an automatic refrigerator keeps foods fresh for a week at a time. This means a saving in food costs and consistent health protection, year 'round!
